

LE ANH TUAN

FRONTEND DEVELOPER

CONTACT

- +84 948796341
- tuanlea22@gmail.com
- Phuong Liet Ward, Ha Noi

TECHNICAL SKILLS

- Programming:** Javascript, Java, SQL (basic), HTML5, CSS3
- Frameworks & Libraries:** ReactJs, NextJs, Redux, React Query, Styled Components, React Intl, Ant Design
- Others:** Git, RESTful APIs, Jira/Trello, Figma
- Concepts:** Responsive Design, Agile/Scrum workflow, Web Performance Optimization

SOFT SKILLS

- Adaptable and quick learner with strong self-learning ability
- Curious mindset with attention to code quality and usability
- Team-oriented, proactive, and open to feedback

LANGUAGES

- English:** Toeic LR - 900

CERTIFICATIONS

- Coursera, Nov 2023: **User Experience Research and Design**
- Coursera, Mar 2022: **Web Design for Everybody: Basics of Web Development & Coding**

ACTIVITIES

- Feb 2025 - Technology Team Volunteer
Vietnam Museum of Ethnology
Organized tech-based interactive activities for Tet event and supported guests' experiences.

CAREER OBJECTIVE

Frontend Software Engineer specializing in React.js and Next.js with experience delivering scalable and performance-optimized web applications for B2B environments. Seeking to further develop into a Fullstack Developer by expanding backend knowledge and contributing to end-to-end product development, from UI/UX to system architecture, ensuring maintainability and long-term system scalability.

EDUCATION

FPT UNIVERSITY | **BACHELOR IN INFORMATION TECHNOLOGY**
2020 - 2024 GPA: 7.19/10.00

WORK EXPERIENCE

Front-end Developer

Computer Vision Vietnam JSC

Oct 2024 - Present

- Achieved ~10–20% improvement in page load speed by optimizing **Next.js** rendering, implementing code-splitting, and refining UI components.
- Optimized frontend performance using code splitting, lazy loading, and responsive design best practices.
- Integrated **RESTful APIs** and collaborated with Back-end team to ensure consistent data exchange and system stability.
- Worked in **Agile/Scrum** environments, contributing to sprint planning and cross-team communication.
- Practiced **clean code** principles, **Git** version control and used **Trello/Jira** for workflow tracking.

Java Developer Intern

FPT Software

Jan 2023 - Apr 2023

- Completed intensive **Java Spring Boot** training, reinforcing front-end fundamentals in **HTML**, **CSS**, and **JavaScript**.
- Worked with mentors and teammates to build a full-stack mock web application.
- Learned to work with SQL (**MySQL**) for data management and **API** integration in test environments.
- Recognized as **Top 3 Outstanding Project** and **Top 3 Individual Contributor** of the internship cohort.

PROJECTS

4Health Clinic Booking (Capstone Project - 2024)

- Developed a web-based application for booking and managing clinic services using **JavaScript**, **HTML**, **CSS**, **Bootstrap**, and **Radzen**.
- Built the system with ASP.NET Core Blazor + WebAssembly (PWA) and handled basic SQL database operations.
- Designed UI layouts and prototypes in Figma, focusing on usability and responsive design.
- Optimized page rendering and front-end performance for better user interaction.
- Github:** <https://github.com/datnht2602/Booking-Clinic.git>
